QuickSilver® Truck Lining Systems

The Perfect Lining Solution. Performance Speaks For Itself

QuickSilver® The Ultimate State of The Art, Industrial Strength Continuous Liner

QuickSilver's® phenomenal integrated release agents promote optimum flow.

Practically self-cleaning, no additional release agents are required.

QuickSilver® eliminates tip-over risk. No sticking or carry-back.

Most loads dump clean by 3rd ram stage.

QuickSilver® is the tried and tested top performer in Australian and global industries.

It's specialised formula was developed by manufacturer **Quadrant EPP**, world renowned producers of premium UHMW-PE, to tackle extreme bulk handling and flow promotion challenges.

QuickSilver® is ultra-tough, ensuring your safety whilst offering huge returns on productivity.

QuickSilver®'s incredible release and self-cleaning properties greatly reduce turn-around time.

That means more loads per day, all year round and that's money in bank.

QuickSilver® weighs substantially less than both steel and aluminium and out wears both.

Superior abrasion, impact and corrosion resistance protects integrity of the original equipment, extending the life of your truck body for years.

QuickSilver® can be fitted in less than one day and requires no ongoing maintenance.

Breathe new life into worn equipment whilst dramatically reducing replacement costs.

Any configuration from dump trailers to gravel trains.

QuickSilver® Proven Industry Performer in Diverse Industries

Bulk Handling Industry, Tippers, Mining & Minerals Handling / Transport,
Construction, Waste Management, Agriculture: Grain Handling / Transport

QuickSilver® Applications

Tipper Bodies / Dump Trailers, Bottom Dumps, Gravel Trains, Chutes,
