

**RETRACTABLE TARPS** P/L

# Tarping Systems and Components

Established 1990

**Wind-Out Hood Tarp**

- Dual Cable Wind Out Tarps
- Single Cable Wind Out Tarps
- Pull Out Tarps
- Roll Over Tarps
- Electric Gear Drive Motors
- Pivot Arm Systems
- Electronic Controllers
- Waterproof Systems
- Asphalt Tarps
- Waste Tarps

Australian Distributors  
of Roll-Rite

**Roll-Rite**  
...Clearly the Best.

**Electric Roll  
Over Arm**

**Tower Tarp**

**Hollowshaft Motor**

**Australia's Leading Manufacturer & Supplier  
of Tarp Systems and Components**

## Wind-Out Hood Tarp System

- Sliding bow system operated by ground level handle
- Well engineered dual cable design
- Available in Quarry Mesh, Partial Waterproof PVC, High Temperature Canvas and Full Long Block Waterproof
- Full long block waterproof now rope free on sides
- Ideal for electric operation

**NEW!!!**

## Hydra-Lift Tower Tarp System - NEW!!!!

- Roll-Rite proven product designed for the Australian Waste Management Industry
- 2-Stage high lift tower is lifted by standalone hydraulic power pack
- Tarp is powered by Roll-Rite SuperDuty motor
- All functions operated at ground level via wireless remote control
- Industry accepted mesh tarp as standard

## Roll Over Tarps & Components

- Complete roll over systems available
- Reinforced PVC & Mesh tarps, Flap Style & Pelmet Style
- Components manufactured in-house using CNC machinery
- Flexbows available & are ideal support

## Manual Steel Arm Systems

- Single arm ideal for walking floors
- Dual arm and single arm for side tippers
- Arm helps stabilise and control system
- Middle knuckle assembly design to clear bulky loads

## Roll-Rite Electric Dual Arm Systems

- Powerful electric system for side-tippers
- Ultimate lockdown and wind protection
- Synchronised arms work together
- Standalone wireless electrics available

## Roll-Rite Hydraulic Dual Arm Systems

- Powerful hydraulic system for side-tippers
- Rugged hydraulic operation for rugged operations
- The ultimate in reliability and performance
- Widely used in the mining sector

## Roll-Rite Electric Front Arm Systems

- Powerful electric system for end-tippers
- Ideal for grain & fertiliser cartage and for walking floors
- High presentation aluminum arms
- Direct drive motor for maximum torque

## Roll-Rite Australia

- Purpose built electric gearmotors
- New efficient 4-Pole motor with more torque
- Extremely high presentation – Adds distinct visual impact
- Hollowshaft Motor – Cable Systems
- TarpStretcher Motor – Side To Side Systems
- SuperDuty Motor – Tower Tarp Systems
- TarpMaster Motor – Pivot Arm Systems

**Roll-Rite**  
...Clearly the Best. 

# Single Cable Tarp System

- Low cost alternative to a conventional hood tarp system
- Simple and time efficient installation, cut costs and fit it yourself!
- Maintains quality and design at budget price
- Endless wire system  
- compact and tidy
- Can be adapted to electric operation

# Pull-Out Tarp System

- Cost effective tarp system
- Easy to operate
- Spring loaded tarp spool rolls back automatically
- Compact and lightweight
- Standard sizes readily available

# Drawbar covers

- Fits angle drawbar
- Eliminates drawbar damage
- Safety yellow colour

# Pivot-Arm Tarp System

- High lift arms to clear bulky loads
- Electric operation preferred
- Suitable for asphalt cartage
- Spiral torsion springs  
- compact design
